

Humber River Hospital. Lighting New Ways In Healthcare.

Humber River Hospital (HRH) is one of Canada's largest acute care hospitals, fully digital, and serving a diverse catchment area of more than 850,000 people in the northwest Greater Toronto Area. HRH operates 722 acute inpatient beds with 3,400 staff, approximately 700 physicians, and over 1,000 volunteers. HRH currently includes the Wilson site, a 656-bed full service acute care facility that opened in 2015, and the Finch and Church sites, known as the "Reactivation Centres" (RCC). The RCCs represent a unique partnership among multiple hospitals in the GTA, with a focus on high quality patient recovery. A 356-bed Long-Term care facility "Humber Meadows" is currently under construction at the Finch Avenue site.

Our vision of *Exceptional Care, Healthier Community* and our focus on equity and inclusivity is something we share with our partners at the North Western Toronto Ontario Health Team. As Canada's first digital hospital and home of the first Patient Care Digital Command Centre, a commitment to innovation, research, and academic excellence remains at the core of our organization. We look forward to further development of these core elements through our membership in the Toronto Academic Health Sciences Network (TAHSN).

As an associate member of TAHSN, HRH provides many academic opportunities to all professions. We are committed to establishing a Family Practice Teaching Unit in partnership with the University of Toronto within the year, further strengthening our commitment to academia. The Hospital has formal affiliations with medical schools at University of Toronto, Queen's University and McMaster University.

HRH has a strong emphasis on quality, safety, and the patient and family experience. In 2018, HRH received Exemplary Standing from Accreditation Canada. HRH also recently received the Studer Group Award for Excellence in Canadian Patient Care and the Canadian Council of Health Service Executives Patient Safety Award.

The Hospital has developed short and long-term objectives outlined in the 2021-23 Strategic Plan with a core direction of advancing HRH as a community academic hospital. Examples include:

- Growing targeted specialty programs that are responsive to the needs of our community
- Establishing an HRH Digital Healthcare Research Institute
- Continuing to shepherd the development of a long-term care facility
- Establishing a comprehensive Medical Education Program

EXCELLENT CAREER OPPORTUNITY

Right now, we are looking for an:

UROGYNECOLOGIST

Humber River Hospital is currently seeking a Full-time Urogynecologist to join a large volume Gynecology and MIS Gynecology team. The Department of Obstetrics & Gynecology currently has a team of 16 dynamic members with a wide breadth of practice.

Applicants must demonstrate excellence in clinical care, possess solid interpersonal skills and be a team player. Excellence in Minimally Invasive skills is encouraged. The applicant must hold relevant certification in Obstetrics & Gynaecology with the Royal College of Physicians & Surgeons of Canada, as well as a fellowship in Urogynaecology. The successful candidate will be provided surgical time as well as access to cystoscopy/urodynamics. Gynecology call coverage is a requirement. New graduates and physicians with existing practices are all welcome to apply.

As a member of TAHSN, the Department of Obstetrics & Gynecology at HRH has medical learners at all levels including medical students, on and off service residents and fellows. The successful candidate will have interest in clinical research and education initiatives including teaching and supervision of medical students, residents. The successful candidate is expected to apply for a faculty position at the University of Toronto, Department of Obstetrics & Gynecology.

We encourage all qualified applicants to **apply in confidence** by forwarding a letter of interest, statement of academic qualifications, curriculum vitae and the names and addresses of three references **by July 18th, 2022** to:

Dr. Andre LaRoche MD FRCSC
Chief/Physician Director of Obstetrics & Gynaecology
Humber River Hospital
1235 Wilson Avenue
Toronto, ON M3M 0B2
E-mail: ALaRoche@hrh.ca

Interested candidates who qualify will be contacted and may be asked to attend a pre-application interview. Selected candidates will be invited to submit a formal application for the position. The hospital reserves the right not to appoint anyone to this position.
